

Ease of use. By design.

- The color touchscreen allows for easy navigation.
- Three comfort settings are designed to be easy to adjust while therapy is running.

Comfort. By design.

- Now with Ramp Plus, you can pick a starting pressure that is comfortable for falling asleep. If events are detected or Ramp Plus concludes, DreamStation 2 Auto CPAP Advanced will move to your prescribed pressure.
- Choose the humidification and heated tube temperature level that's right for you.
- Philips micro-flexible heated 12mm tube weighs less than the leading brands' 15mm or larger CPAP heated tubing.

Support. By design.

- Track your progress, set goals and get helpful tips with the free Philips DreamMapper app.
- Integrated connectivity allows you to stay connected with your care team.

People struggling with adherence to sleep therapy have a 283% higher success rate with the DreamMapper app.⁷
